

When you load the page, you should see something similar to the screenshot below.

The screenshot shows a header section with a coastal landscape background. At the top, there are four navigation links: 'Bio' (highlighted in blue), 'Work', 'Projects', and 'Contact'. Overlaid on the background image is the text 'professional website' in a small, italicized font, followed by a large, bold, white font 'GREGORY MURRAY'. Below this, a section titled 'Biography' is visible, featuring a small circular profile picture of a person's head.

If you click one of the links at the top of the nav bar, it should trigger a jquery animation that scrolls to the section you selected.

The screenshot shows the 'Projects' section of the website. At the top, there is a horizontal navigation bar with links: 'Bio' (highlighted in blue), 'Work', 'Projects' (highlighted in blue), and 'Contact'. Below this, the section title 'My Projects' is displayed in a large, blue font. There are two project entries: 'Fantasy Sports Script' with a thumbnail image of a man holding a banana and the text 'WHERE DID YOU GET YOUR FANTASY TEAM... AT THE TOILET STORE?' and 'Portfolio Manager' with a thumbnail image of a bar chart and the text 'something here'.

Similarly, clicking on the linkedin and email button should trigger a new page to open to my LinkedIn, or a popup to send an email to my email. Along with this you should be able to manage the content of the page by accessing the database. By going to the admin login, you should be able to add a work or project in the database, and see it pop up in real time.
